NOTES TO INTERIM CONDENSED CONSOLIDATED FINANCIAL STATEMENTS

1. CORPORATE AND GROUP INFORMATION

The Company is a joint stock company with limited liability established in the People's Republic of China ("PRC"). The registered office of the Company is located at No.308, Yin Quan Road, Xicheng Street, Huang Yan District, Taizhou, Zhejiang Province, PRC.

The Company and its subsidiaries (together, the "Group") are principally engaged in supplying raw water, municipal water and tap water directly to end-users and the installation of the water pipelines for distributing tap water to end-users.

The Company was listed on the Main Board of The Stock Exchange of Hong Kong Limited (the "Stock Exchange") on 31 December 2019.

2.1 BASIS OF PREPARATION

The interim condensed consolidated financial information for the six months ended 30 June 2022 has been prepared in accordance with HKAS 34 *Interim Financial Reporting*. The interim condensed consolidated financial information does not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual consolidated financial statements for the year ended 31 December 2021.

The unaudited interim condensed consolidated financial statements have been prepared under the historical cost convention. These financial statements are presented in Renminbi ("RMB") and all values are rounded to the nearest thousand except when otherwise indicated.

Going concern assumption

As at 30 June 2022, the Group's net current liabilities amounted to approximately RMB615,546,000. The liquidity of the Group is primarily dependent on its ability to maintain adequate cash inflows from operations and sufficient financing to meet its financial obligations as and when they fall due. In preparing the financial statements, the directors of the Company have considered the Group's sources of liquidity and believe that adequate funding is available to fulfill the Group's debt obligations and capital expenditure requirements. Accordingly, the consolidated financial statements have been prepared on a basis that the Group will be able to continue as a going concern.

2.2 CHANGES IN ACCOUNTING POLICIES AND DISCLOSURES

The accounting policies adopted in the preparation of the interim condensed consolidated financial information are consistent with those applied in the preparation of the Group's annual consolidated financial statements for the year ended 31 December 2021, except for the adoption of the following revised Hong Kong Financial Reporting Standards ("HKFRSs") for the first time for the current period's financial information.

Amendments to HKFRS 3	<i>Reference to the Conceptual Framework</i>
Amendment to HKFRS 16	<i>Covid-19-Related Rent Concessions beyond 30 June 2021</i>
Amendments to HKAS 16	<i>Property, Plant and Equipment: Proceeds before Intended Use</i>
Amendments to HKAS 37	<i>Onerous Contracts – Cost of Fulfilling a Contract</i>
<i>Annual Improvements to HKFRSs 2018-2020</i>	Amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41

The nature and impact of the revised HKFRSs are described below:

- (a) Amendments to HKFRS 3 replace a reference to the previous *Framework for the Preparation and Presentation of Financial Statements* with a reference to the *Conceptual Framework for Financial Reporting* issued in June 2018 without significantly changing its requirements. The amendments also add to HKFRS 3 an exception to its recognition principle for an entity to refer to the Conceptual Framework to determine what constitutes an asset or a liability. The exception specifies that, for liabilities and contingent liabilities that would be within the scope of HKAS 37 or HK(IFRIC)-Int 21 if they were incurred separately rather than assumed in a business combination, an entity applying HKFRS 3 should refer to HKAS 37 or HK(IFRIC)-Int 21 respectively instead of the Conceptual Framework. Furthermore, the amendments clarify that contingent assets do not qualify for recognition at the acquisition date. The Group has applied the amendments prospectively to business combinations that occurred on or after 1 January 2022. As there were no contingent assets, liabilities and contingent liabilities within the scope of the amendments arising in the business combination that occurred during the period, the amendments did not have any impact on the financial position and performance of the Group.
- (b) Amendments to HKAS 16 prohibit an entity from deducting from the cost of an item of property, plant and equipment any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognises the proceeds from selling any such items, and the cost of those items, in profit or loss. The Group has applied the amendments retrospectively to items of property, plant and equipment made available for use on or after 1 January 2021. Since there was no sale of items produced while making property, plant and equipment available for use on or after 1 January 2021, the amendments did not have any impact on the financial position or performance of the Group.
- (c) Amendments to HKAS 37 clarify that for the purpose of assessing whether a contract is onerous under HKAS 37, the cost of fulfilling the contract comprises the costs that relate directly to the contract. Costs that relate directly to a contract include both the incremental costs of fulfilling that contract (e.g., direct labour and materials) and an allocation of other costs that relate directly to fulfilling that contract (e.g., an allocation of the depreciation charge for an item of property, plant and equipment used in fulfilling the contract as well as contract management and supervision costs). General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract. The Group has applied the amendments prospectively to contracts for which it has not yet fulfilled all its obligations at 1 January 2022 and no onerous contracts were identified. Therefore, the amendments did not have any impact on the financial position or performance of the Group.
- (d) *Annual Improvements to HKFRSs 2018-2020* sets out amendments to HKFRS 1, HKFRS 9, Illustrative Examples accompanying HKFRS 16, and HKAS 41. Details of the amendments that are applicable to the Group are as follows:
- HKFRS 9 *Financial Instruments*: clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other's behalf. The Group has applied the amendment prospectively to financial liabilities that are modified or exchanged on or after 1 January 2022. As there was no modification of the Group's financial liabilities during the period, the amendment did not have any impact on the financial position or performance of the Group.
 - HKFRS 16 *Leases*: removes the illustration of payments from the lessor relating to leasehold improvements in Illustrative Example 13 accompanying HKFRS 16. This removes potential confusion regarding the treatment of lease incentives when applying HKFRS 16.

3. OPERATING SEGMENT INFORMATION

For management purposes, the Group only has one reportable operating segment which is water supply and installation of water pipelines. Management monitors the operating results of the Group's operating segment as a whole for the purpose of making decisions about resources allocation and performance assessment.

Geographic information

(a) *Revenue from external customers*

The Group operated within one geographical area as all of the Group's revenue was generated from customers located in Mainland China.

(b) *Non-current assets*

All non-current assets of the Group are located in Mainland China.

MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY OVERVIEW

In 2020, the Party Central Committee published the 14th Five-Year Plan, proposing to continuously improve the quality of the environment, enhance public awareness of the ecological environment, improve the quality and stability of the ecosystem, establish a rigid system of water conservation, and comprehensively improve the efficiency of resource utilization. The Water Resources Bureau of Taizhou City has also published the “14th Five-Year Plan for Water Safety in Taizhou City”, which proposes to basically build a modern water network framework in Taizhou with reasonable layout and reliable protection. With the rapid release of demand driven by top-level design such as carbon neutrality and the 14th Five-Year Plan, the implementation of Taizhou’s local environmental protection policies will have a positive impact on the Group’s ability to ensure water supply safety, broaden the layout of its industrial chain and promote industrial transformation and upgrading.

DEVELOPMENT STRATEGIES AND OUTLOOK

The year of 2022 is the second year of implementing the 14th Five-Year Plan. The Group follows the direction of water and environmental protection policies, integrates internal and external resources, focuses on the core positioning of “integrated development operator of water and environmental protection resources” and the construction of two platforms, namely, “investment, financing, construction, management and transportation platform for water and environmental protection engineering” and “integrated development and utilization platform for water and environmental protection resources ” and forms the layout of two industrial sectors, “water sector + environmental protection sector”. The Group is committed to becoming an excellent water service provider and comprehensive development operator of water and environmental protection resources in the Yangtze River Delta region. The Group successfully completed the integration of water supply services in this year. Through the acquisition of equity interests in other water supply companies in Taizhou, the Group enjoys the benefits of an expanded industrial chain and economic scale, which strengthens its position as a leading water supply service provider in Taizhou.

The Group will continue to explore the ecological environmental protection area and actively develop areas covering wastewater, reusable water, solid waste disposal and venous industrial park etc. to promote the development of green environmental protection business. The Group actively carries out cooperation and exchange with universities to explore the future layout of the Group’s environmental protection business, promote cooperation among industrial, academic and research areas to achieve a win-win development for schools and enterprises.

BUSINESS REVIEW

As a leading water supply service provider in Taizhou, the Group’s principal business includes supply of raw water, municipal water and tap water, ranking the first in Taizhou in terms of raw water and municipal water supply. The Group also offers tap water directly to end-users and engages in the installation services of water pipelines for distributing tap water to end-users.

The Group owns, operates and manages the Taizhou Water Supply System (Phase I) and the Taizhou Water Supply System (Phase II), with a designed raw water supply capacity of approximately 740,000 tonnes per day, and designed municipal water supply capacity of 366,000 tonnes per day in southern Taizhou. The Group has commenced the construction of the Taizhou Water Supply System (Phase III) and the Taizhou Water Supply System (Phase IV) in February 2018 and November 2018, respectively. Taizhou Water Supply System (Phase III) and the Taizhou Water Supply System (Phase IV) are specifically launched to cater for (i) the increasing demand for water supply in the Jiaojiang District, the Luqiao District and the east of Wenling; and (ii) the anticipated demand for water supply as a result of the establishment of increasing economic activities in the Taizhou Bay Economic Zone and the South Bay Zone. On 14 July 2022, the water test run of the Taizhou Water Supply System (Phase III) and the Taizhou Water Supply System (Phase IV) commenced. As at the date of this announcement, the construction of the water supply systems has been substantially completed and the water supply systems are pending the completion of inspection.

Pursuant to the “Notice on the Issue of Implementation Opinions on the Reform of Integration of Water Supply in Taizhou” (關於印發《台州市區水務一體化改革實施意見》的通知) issued by the Municipal Committee Office of Taizhou (中共台州市委辦公室) and the Taizhou Municipal People’s Government Office (台州市人民政府辦公室) on 17 September 2018, it was stressed that the integration of water supply in Taizhou is essential for improving people’s livelihood, promoting integrated development of urban areas, efficient use of water and the transformation and upgrade of water supply business in Taizhou.

1. Raw Water Supply Project

The designed water supply capacity of Taizhou Water Supply System (Phase I) is 250,000 tonnes per day, and the raw water is supplied to local municipal water service providers and Wenling Zeguo Water Supply Co., Ltd. (a wholly-owned subsidiary of the Company). The raw water supply capacity of the Taizhou Water Supply System (Phase II) is 490,000 tonnes per day, of which 380,000 tonnes per day is supplied to Taizhou Water Treatment Plant of the Group. During the Reporting Period, the raw water sales volume was 58.9 million tonnes, representing an increase of 0.4 million tonnes as compared with 58.5 million tonnes for the six months ended 30 June 2021.

2. Municipal Water Supply Project

Taizhou Water Treatment Plant of the Taizhou Water Supply System (Phase II) has a designed municipal water supply capacity of 366,000 tonnes per day and is responsible for providing the municipal water which is sold to local municipal water service providers. During the Reporting Period, municipal water sales volume was 58.7 million tonnes, representing a decrease of 11.6 million tonnes as compared with 70.3 million tonnes for the six months ended 30 June 2021.

3. Tap Water Supply Project

The Group is responsible for supplying tap water to local end-users of Zeguo Town, Wenling City (including commercial users, government authorities, industrial users and residential households in Zenguo Town). During the Reporting Period, tap water sales volume was 5.2 million tonnes, as compared to 5.2 million tonnes for the six months ended 30 June 2021.

4. Installation Services

In connection with tap water supply services, the Group undertakes water pipeline installation works to connect new end-users to the Group's pipeline network and charges an installation fee for such services. During the Reporting Period, revenue from installation services amounted to approximately RMB11.9 million, representing an increase of RMB5.1 million as compared to approximately RMB6.8 million for the six months ended 30 June 2021.

5. Construction Project

Construction projects in progress of the Group are the Taizhou Water Supply System (Phase III) and the Taizhou Water Supply System (Phase IV).

The construction of the Taizhou Water Supply System (Phase III) commenced in February 2018 and the water test run commenced in July 2022. As at the date of this announcement, the construction of the water supply systems has been substantially completed and the water supply systems are pending the completion of inspection. Upon completion of its construction, the Group plans to apply for the relevant permit to supply tap water directly to end-users in the areas the Taizhou Water Supply System (Phase III) passes through.

The construction of the Taizhou Water Supply System (Phase IV) commenced in November 2018 and the water test run commenced in July 2022. As at the date of this announcement, the construction of the water supply systems has been substantially completed and the water supply systems are pending the completion of inspection. The Group is, as at the date of this announcement, applying for the relevant permit to supply tap water directly to the end-users in Yuhuan City.

During the Reporting Period, the Group relentlessly pushed the progress of the construction projects. These two new water supply systems will further enhance the leading position of the Group in the water supply industry in Taizhou. Upon completion of inspections of the Taizhou Water Supply System (Phase III) and the Taizhou Water Supply System (Phase IV), the total designed raw water supply capacity of the four water supply systems operated by the Group is expected to reach 1,220,000 tonnes per day. The total designed municipal water supply capacity is expected to reach 750,000 tonnes per day, representing an increase of 104.9% from that of the current two water supply systems.

FINANCIAL REVIEW

1. Analysis of Key Items of Consolidated Statement of Profit or Loss and Other Comprehensive Income for the Continuing Operations

1.1 Revenue

(2) Municipal water supply

Revenue of the Group generated from sales of municipal water decreased by RMB29.5 million or 17.2%, from approximately RMB171.6 million for the six months ended 30 June 2021 to approximately RMB142.1 million for the Reporting Period. The decrease was mainly attributable to the new water plant in Daxi, Wenling during the Reporting Period, municipal water sales volume decreased from 70.3 million tonnes for the six months ended 30 June 2021 to 58.7 million tonnes for the Reporting Period.

(3) Tap water supply

Revenue of the Group generated from sales of tap water increased by RMB0.4 million or 1.8%, from approximately RMB21.9 million for the six months ended 30 June 2021 to approximately RMB22.3 million for the Reporting Period.

(4) Installation services

Revenue of the Group generated from installation services increased by RMB5.1 million or 75%, from approximately RMB6.8 million for the six months ended 30 June 2021 to approximately RMB11.9 million for the Reporting Period. The increase was mainly due to the renovation project for the village-level pipelines and new construction of the railway new district and other main pipeline projects.

1.2 Cost of sales

The Group's cost of sales decreased by RMB1.4 million or 1.0%, from approximately RMB141.7 million for the six months ended 30 June 2021 to approximately RMB140.3 million for the Reporting Period. The decrease was mainly due to the decrease in municipal water sales volume.

1.3 Gross profit and gross profit margin

As a result of the above, the Group's gross profit decreased by RMB22.4 million or 19.0%, from approximately RMB118.1 million for the six months ended 30 June 2021 to approximately RMB95.7 million for the Reporting Period. Gross profit margin decreased from 45.5% for the six months ended 30 June 2021 to 40.6% for the Reporting Period.

1.4 Other income and gains

Other income and gains decreased by RMB2.2 million or 29.7%, from approximately RMB7.4 million for the six months ended 30 June 2021 to approximately RMB5.2 million for the Reporting Period. The decrease was mainly due to the decrease in revenue for the Reporting Period, resulting in the reduction of VAT refund.

1.5 Administrative expenses

Administrative expenses increased by RMB0.3 million or 1.2%, from approximately RMB25.9 million for the six months ended 30 June 2021 to approximately RMB26.2 million for the Reporting Period. Such increase was mainly due to the increase in employee benefit expenses.

1.6 Finance costs

Finance costs increased by RMB0.9 million or 13.6%, from approximately RMB6.6 million for the six months ended 30 June 2021 to approximately RMB7.5 million for the Reporting Period. The increase was mainly due to new loans.

1.7 Income tax expense

Income tax expense decreased by RMB6.4 million or 26.8%, from approximately RMB23.9 million for the six months ended 30 June 2021 to approximately RMB17.5 million for the Reporting Period. Such decrease was primarily due to the decrease in profit before tax.

1.8 Profit after tax and profit margin after tax

As a result of above, profit for the Reporting Period decreased by RMB31.2 million or 45.3%, from approximately RMB68.8 million for the six months ended 30 June 2021 to approximately RMB37.6 million for the Reporting Period. Profit margin after tax decreased from 26.5% for the six months ended 30 June 2021 to 15.9% for the Reporting Period. The decrease was mainly due to the decrease in the revenue from municipal water.

2. Analysis of Key Items of Consolidated Statement of Financial Position

2.1 Property, plant and equipment

As at 31 December 2021 and 30 June 2022, property, plant and equipment were approximately RMB3,582.5 million and RMB3,930.5 million, respectively, and mainly comprised construction in progress, water supply pipelines, buildings, machinery and equipment for water supply business. The increase was primarily attributable to the additions of construction in progress of Taizhou Water Supply System (Phase III) and Taizhou Water Supply System (Phase IV).

2.2 Right-of-use assets

As at 31 December 2021 and 30 June 2022, right-of-use assets were approximately RMB395.2 million and RMB383.3 million, respectively.

As at 31 December 2021 and 30 June 2022, inventories were approximately RMB4.9 million and RMB5.0 million, respectively. Inventories mainly comprised chemicals used in the water treatment process.

2.4 Trade receivables

As at 31 December 2021 and 30 June 2022, trade receivables were approximately RMB100.4 million and RMB90.5 million, respectively. Trade receivables were related to receivables from customers of the water supply business. This is due to the decrease in revenue of municipal water supply and the increase in the collection of receivables.

2.5 Prepayments, other receivables and other assets

As at 31 December 2021 and 30 June 2022, prepayments, other receivables and other assets were approximately RMB23.6 million and RMB18.0 million, respectively.

2.6 *Trade payables*

As at 31 December 2021 and 30 June 2022, trade payables were approximately RMB61.7 million and RMB61.1 million, respectively. Trade payables mainly comprised outstanding payments for raw water procurement and water resources fee.

2.7 *Other payables and accruals*

As at 31 December 2021 and 30 June 2022, other payables and accruals were approximately RMB764.4 million and RMB701.1 million, respectively.

2.8 *Deferred government grants*

As at 31 December 2021 and 30 June 2022, deferred government grants were approximately RMB106.9 million and RMB154.6 million, respectively. Such increase was mainly due to the subsidy received from the Yuhuan Water Conservancy Bureau for Taizhou Water Supply System (Phase IV).

2.9 *Liquidity and financial resources*

The Group manages its capital to ensure that its entities will be able to operate on a going concern basis and maximises the return to the shareholders of the Company (the “**Shareholders**”) through optimisation of the debt and equity balance. During the Reporting Period, the overall strategy of the Group remained unchanged. The capital structure of the Group consisted of net debt (including borrowings net of cash and cash equivalents) and total equity (including paid-in capital/share capital, capital reserve, statutory surplus reserve, retained profits and non-controlling interests).
